Welcome to our practice!

Accessibility

For practical questions or to make appointments, we are available from Monday to Friday from 13:00-14:00 am on **0346-599590**.

You can also send us an e-mail at verloskundigen@gcmbroek.nl

For urgent matters, call the same number. Then choose option 1. You are then transferred to the on-call midwife. If you aren't able to reach us during an emergency or after repeated tries with a non-emergency, call 06-30378851. You will be able to talk to the on-call midwife from midwifery practice Het Wonder in Houten.

Look on our socials and website for more info about our team and the way we work.

Questionnaire midwifery

Enclosed you will find a questionnaire. We request that you complete this form as accurately as possible and give it to the first appointment you've got planned with us. Be aware of the last page, where it asks for your preferences regarding use and sharing of your medical information.

Information about additional prenatal screening and diagnostics

We also sent a leaflet with information about prenatal screening. You only need to read this leaflet if you have decided that you want to know more about research of (the chance of) birth defects in your unborn child. The information can lead to (possibly unnecessary) feelings of anxiety. That is why it is important that you have carefully considered in advance whether or not you want to read this information. Not all prenatal screening is yet included in the basic insurance.

If you are unable to attend, please tell us timely in advance during the telephone consultation hour or via the mail.

Sincerely,

Team Midwifery
